Employee Time Clock Log Management

Working Demo of the 'Work Log Management' web application

Objective:

- To maintain a time log of all the employees (this will be useful to run the payroll since the working hours of each employee is recorded)

Features:

- Register an Employee of a particular department
- Log working hours
- Retrieve the working hours log report via Mail, Document, PDF, Image

Thank you so much for viewing this working demo sheet.
Hope you got an idea of how this application works.
Highly appreciate the feedbacks if any.

Regards,
